guilhermerezende.dev.br · github.com/guilhermerezende10 · linkedin.com/in/guilherme-rezende-silva-518297235

OBJECTIVE

Front-end / Full Stack Development internship or related roles.

ABOUT

Computer Science student at Mackenzie Presbyterian University (São Paulo, Brazil) with a technical degree in Systems Development from ETEC. Hands-on experience building React and TypeScript web applications, including API integration and professional work on an AI-powered education platform. Fluent in English.

EXPERIENCE

Full Stack Developer — toLearn

Mar 2026 – Present

- Developed and shipped 25+ features to production using React, TypeScript, and Node.js.
- Reduced render time of critical components with React.memo and useMemo, improving application performance.
- Implemented personalized learning paths powered by adaptive AI.
- Built reusable components following componentization best practices.
- Integrated REST APIs for platform features.
- Collaborated via Git, pull requests, and code review.

SKILLS

ADVANCED: React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Git and GitHub
INTERMEDIATE: Python, Claude Code
LANGUAGES: Portuguese (native), English (fluent)

EDUCATION

B.Sc. in Computer Science — Mackenzie Presbyterian University	2026 – 2029
Technical Degree in Systems Development — ETEC Praia Grande	2023 – 2025
English as a Second Language — CNA Idiomas	2022 – 2026

PROJECTS

FitMeta React · TypeScript · Supabase · React Query

Developed a workout-management web app with authentication, database-backed CRUD, protected routes, and global state management. Component-based architecture focused on scalability and best practices.

github.com/guilhermerezende10/FitMeta · fitmeta.com.br

Docgen React · TypeScript · Ollama · Vite

Created a web app that takes source code in 10+ languages, auto-detects the language, and generates structured technical documentation with a local LLM — no cloud or API key required.
